

15th Annual Update Conference on Neurology & Neurophysiology

Monday, February 18, 2019 ♦ Sheraton Hotel, Tel Aviv, Israel

www.neurophysiology-conference.com

PRELIMINARY SCIENTIFIC PROGRAM*

HALL A	HALL B
PAIN Coordinator: Robert Gerwin	NEURO-OPHTHALMOLOGY Coordinator: Ruth Huna-Baron
08:30 Registration, exhibition & refreshments	08:30 Registration, exhibition & refreshments
08:45 Greetings and introduction <i>Robert Gerwin, USA</i>	09:00 Nystagmus <i>Caroline Tilikete, France</i>
09:00 Fibromyalgia: Current status and treatment <i>Michael Lottan, Israel</i>	09:45 Central ocular motor palsy <i>Caroline Tilikete, France</i>
09:30 Visceral pain <i>Maria Adele Giamberardino, Italy</i>	
10:00 Coffee break + exhibition	10:30 Coffee break + exhibition
10:30 Viscerosomatic pain syndromes <i>Maria Adele Giamberardino, Italy</i>	11:00 Pupil: Afferent and efferent defects <i>Aki Kawasaki, Switzerland</i>
11:15 Shoulder fracture pain: From the fracture or not? <i>Simon Vulfsons, Israel</i>	11:30 Update on ischemic optic neuropathy <i>Aki Kawasaki, Switzerland</i>
11:45 Cannabis in pain management <i>Elon Eisenberg, Israel</i>	12:00 MOG versus AQP4 optic neuritis <i>Hadas Kalish, Israel</i>
12:15 TBA <i>Elyad Davidson, Israel</i>	
12:45 Panel for questions	
13:00 Lunch + exhibition	12:30 Lunch + exhibition
14:00 Migraine headaches: New treatments <i>Roni Sharon, Israel</i>	13:30 Debate: Early neuroimaging in acute isolated ocular motor nerve palsies <i>Nitza Goldenberg-Cohen, Israel</i> <i>Ainat Klein, Israel</i>
14:30 Facial pain <i>Roni Sharon, Israel</i>	14:00 Update on idiopathic intracranial hypertension <i>Ruth Huna-Baron, Israel</i>
15:00 Coffee break + exhibition	14:30 Coffee break + exhibition
15:30 Central pain mechanisms <i>Yelana Granovsky, Israel</i>	15:00 Challenging neuro-ophthalmic cases Chair: <i>Iris Ben Bassat-Mizrachi, Israel</i> Panel: <i>Anat Kesler, Israel</i> <i>Hana Leiba, Israel</i> <i>Eyal Aloni, Israel</i>
16:00 Polymorphisms as a cause of myofascial pain <i>Robert Gerwin, USA</i>	
16:45 Panel discussion	

15th Annual Update Conference on Neurology & Neurophysiology

Tuesday, February 19, 2019 ♦ Sheraton Hotel, Tel Aviv, Israel

www.neurophysiology-conference.com

PRELIMINARY SCIENTIFIC PROGRAM*

HALL A	HALL B
WORKSHOP Visceral Pain & Myofascial Pain Mimicry Coordinator: Robert Gerwin Co-Coordinator: Simon Vulfsons	MOVEMENT DISORDERS Coordinators: Sharon Hassin-Baer and Gilad Yahalom
08:30 Registration, exhibition & refreshments	08:30 Registration, exhibition & refreshments
09:00 Introduction to myofascial trigger points and referred pain; neurology of trigger points <i>Robert Gerwin, USA</i>	Update on hyperkinetic movement disorders A
09:30 Viscerosomatic pain mechanisms <i>Maria Adele Giamberardino, Italy</i>	09:00 Welcome
10:15 Cardiac and non-cardiac thoracic viscerosomatic pain syndromes <i>John Kent, Israel</i>	09:05 Huntington's disease – overview and genetics <i>Bernhard Landwehrmeyer, Germany</i>
10:45 Coffee break + exhibition	09:45 The therapeutic challenge in Huntington's disease <i>Sarah Tabrizi, United Kingdom</i>
11:15 Dry needling of the lateral and medial portions of the pectorals major muscle in viscerosomatic pain syndromes <i>Simon Vulfsons, Israel</i>	10:30 Coffee break + exhibition
12:00 Upper thoracic paraspinal muscle syndromes: description and dry needling <i>John Kent, Israel</i>	Update on hyperkinetic movement disorders B
13:00 Lunch + exhibition	11:00 Drug-induced movement disorders I: Parkinsonism and tremor <i>Gilad Yahalom, Israel</i>
14:00 Common viscerosomatic syndromes: abdominal muscle syndromes, irritable bowel syndrome, painful bladder syndrome, endometriosis <i>Maria Adele Giamberardino, Italy</i>	11:30 Drug-induced movement disorders II: Acute and tardive syndromes <i>Sharon Hassin-Baer, Israel</i>
15:00 Ultrasound-guided deep dry needling of the abdominal wall <i>Simon Vulfsons, Ronen Cozacov, Israel</i>	12:00 Neurosurgical interventions for hyperkinetic movement disorders <i>Simon Israeli-Korn, Israel</i>
<p>This will be a hands-on learning experience, with particular emphasis on palpation of relevant muscles (pectorals, abdominals, gluteals, piriformis, transverse perineus, levator ani, etc) and the safe treatment of relevant trigger points by deep dry needling.</p>	12:30 Pharmacological interventions for hyperkinetic movement disorders <i>Tanya Gurevich, Israel</i>
	13:00 Lunch + exhibition
	Update on Parkinson's disease
	14:00 Prodromal Parkinson's disease <i>Claudia Trenkwalder, Germany</i>
	14:40 Development of targeted therapies for Parkinson's disease <i>Nirit Lev, Israel</i>
	15:10 Fatigue, sleepiness and sleep disorders in Parkinson's disease <i>Claudia Trenkwalder, Germany</i>
	15:40 How to evaluate cognitive disturbances in Parkinson's disease?
	16:00 TBA
	16:20 Algorithms for treatment of advanced Parkinson's disease <i>Ruth Djaldetti, Israel</i>
	16:40 New approaches for treatment of gait disorders <i>Nir Giladi, Israel</i>
	17:00 Coffee break
	Evening session
	17:30-19:00 Unusual movement disorders
